

IF YOU LOVED LUCY.....

....problem is, I don't love Lucy and neither should you. So who is this Lucy anyway? She's the darling of the Liberal 'Out Of Africa' theory about Race and the origins of man. According to these pseudo-anthropologists, we all came out of Africa sometime last Tuesday and by Thursday we'd all turned White and changed from Black men into Europeans.

No, a bit more seriously though (but not too much because the 'Out Of Africa' theory is both a BAD and DANGEROUS joke), Lucy is the common ancestor of very human being on the planet. Dare try to say otherwise and if you are an academic you'll lose your job and any papers you produce that contradict this ludicrous theory just won't get published!

Who decided all races are equal? Was it a long and built up tradition backed up by the most painstaking research? No, in fact it comes from an off the cuff statement in 1950 published by UNESCO which glibly stated ' *UNESCO took up the challenge and established a committee of experts that published the 1950 Statement on Race, which declared that there was no scientific basis or justification for racial bias*'

This 'committee of experts met once and were made up of the likes of Franz Boas, a German -Jew who is credited with the statement that Race is a fallacy invented by Europeans. He was backed up by the lesbian Ruth Benedict, Alfred Louis Kroeber who married into the Rothschild family in 1950 and amongst other charlatans - Melville Jean Herskovits, born of dedicated Jewish parents from Germany. Should I go on? It

gets worse and I think I have proved my points - the UNESCO declaration on race is an utter lie yet most countries base their teachings about race and anthropology on it.

One of the biggest things to show this 'Race is a Social Construct' is the cracking of the Human Genome and the vast areas of study now open to scientists about the origins of mankind.

Did you know for instance that according to genetic research, Europeans have about 4 to 5% of their genetic make up from Neanderthals (who actually had a larger brain), and point to the fact that Neanderthal man disappeared by inter-breeding with White Homo-Sapiens.

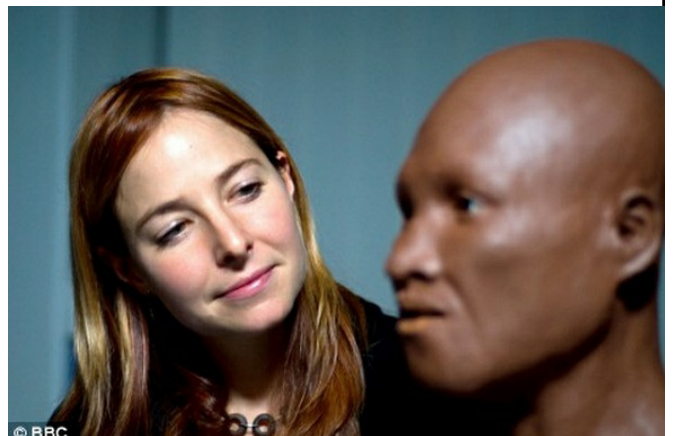

The most startling find however is that NO Neanderthal genes exist in any race of Sub-Saharan Blacks! The implications of that is are we not just different races but DIFFERENT SUB-SPECIES? With findings now being made in the Gobi Desert and China as well as Java and Indonesia it is becoming VERY clear that humanity developed in many places at different times and we are NOT 'Out of Africa' at all.

The origin of the Aborigines give even more pause for thought. Australia broke away from Africa (then the super-continent of Gondwanaland) 184 million years ago - long before man arrived on the scene. So where did the Aborigines come from? Did they make a huge boat about 60,000 years and sail from Africa to Australia?

Hardly. **The aborigines may in fact be a separate species of Homo-Sapiens altogether.**

Meanwhile fake pseudo-scientists like the BBC 's pet Alice Roberts take fat cheque's for perpetrating the myth that 'Lucy'; was some sort of primeval Eve.

EDITORIAL THOUGHTS.....

This issue ends the old year and heralds in the new - 2018, 100 years since the end of the carnage of the Somme, Ypres and Passchendaele. 73 years since the 'War Of Aryan Survival' was lost and six and a half million White British;; Germans; Americans; Italians and volunteers to the Waffen SS from a dozen countries breathed their last in the bloodiest 'Brother's War' ever.

The flower of Aryan courage lay strewn over battlefields from Normandy to Stalingrad and from Norway to North Africa.

2017 saw another anniversary pass - the 50th year of existence of the National Front, formed in a spirit of Unity in 1967 and which has never - to date - been repeated.

Readers do not need me to tell them of the sad, shattered plight of British Nationalism as 2017 ends. The last 17 years of triumph and total disaster lie with one man - Nicholas John Griffin, a man who saw the most powerful Nationalist Party since the BUF rise to prominence and then in bloodletting after bloodletting; in purge after purge, purposely destroyed it.

Its pathetic rump of a few score men and women are held together by the greed of the remaining 'leadership', who sit vulture-like on graveyard walls waiting for those former members to pass away so that the money left to the BNP in their wills (in good faith at the time) - and where it will go to is anyone's guess.

I'd like to say Griffin has gone for good but not so. In a recent article on Nationalist Sentinel I exposed his *latest tour de la comedie*.

Griffin is now convinced that atheistic homosexual Satanists have taken over and have emerged as the 'Alt-Right'. He's even published a pamphlet "Alt-Right - Not Right" which I urge you to avoid at all costs.

Why he did it and what his motivations were are the subject of constant debate but I would say this "If you seek His monument look around you".

.....the graveyard that is now British Nationalism.

A few issues back we thought about resurrecting the White Nationalist Party, probably the best organised Movement since the year 2000. However, myself and my close Comrades decided it was not the time nor the atmosphere to bring about the resurrection of a good Movement which has now ended. The task for just a few dedicated White Nationalists was going to be just too great.

"We have enough Nationalist parties" I constantly hear when actually we haven't ANY! No Nationalist group in the United Kingdom at this current time is remotely electable even to the point of a local council win. Votes are often counted in single figures (the NF in Hull with just 7 votes in one ward has to be the worst ever result since records were kept!). Percentage figures require a microscope to work out.

Yet there are a myriad of GROUPS and FORUMS of all shapes and sizes. They contain *in toto* the activist White Nationalists in Britain today.

So our goal must be this - in the great spirit of 1967 to forge these disparate groups into a new and professional Movement based on discipline, leadership and a fanatical will to win.

This means that a lot of hand-shaking has got to take place. A lot of former feuding and personality problems must be forgotten and forgiven.

The first task in this NEW BEGINNING is to get Nationalists taking to each other; to break down the artificial barriers that separate us and to let those whose personal inflated egos make them cling on to their shrinking groups drop out of sight. We need their dedicated members not the pathos of men and women who don't just cannot bring themselves to say their group is getting nowhere - its time to talk, its time for the NEW BEGINNING!

I am only one, elderly White Nationalist but I mean to strive with both might and main throughout 2018 to create the conditions for a new unity and a professional and disciplined Movement.

I will be setting out in future issues of WV the things we need to do and also publishing support articles on Nationalist Sentinel.

I CANNOT do it alone. I cannot cover every base but even over these last few months I have been opening doors to former colleagues to establish the network from which the New Movement and the NEW BEGINNING will arise.

Make a start yourself and dump the Facebook feuding that has helped tear us apart. ***But above all take it into your hearts and minds that we cannot give up this fight - we aim to win!***

Don't let them welch on Brexit!

(From the Change Britain Campaign)

Friday 8th December was important. We've made a significant first step in making sure that we are leaving the EU, taking back control of borders, laws and taxes. And as Michael Gove said this morning, there will be more money for the NHS as a result of this deal.

Today's agreement is a welcome development that means we are able to move on to talks on trade and transition.

But the job is not done. We must ensure that the 'full alignment of regulations' does not come to mean keeping membership of the Single Market and the Customs Union by another name. The UK must not become a rule-taker - we will make our rules not the EU. This would not respect the mandate delivered last June to take back control of our laws.

It is also good that both sides have reached agreement on a final figure for the Brexit Bill. But we should make sure that the UK is paying no more than our legal obligation. What already seems clear however is that figures as high as £100bn were simply another part of Project Fear.

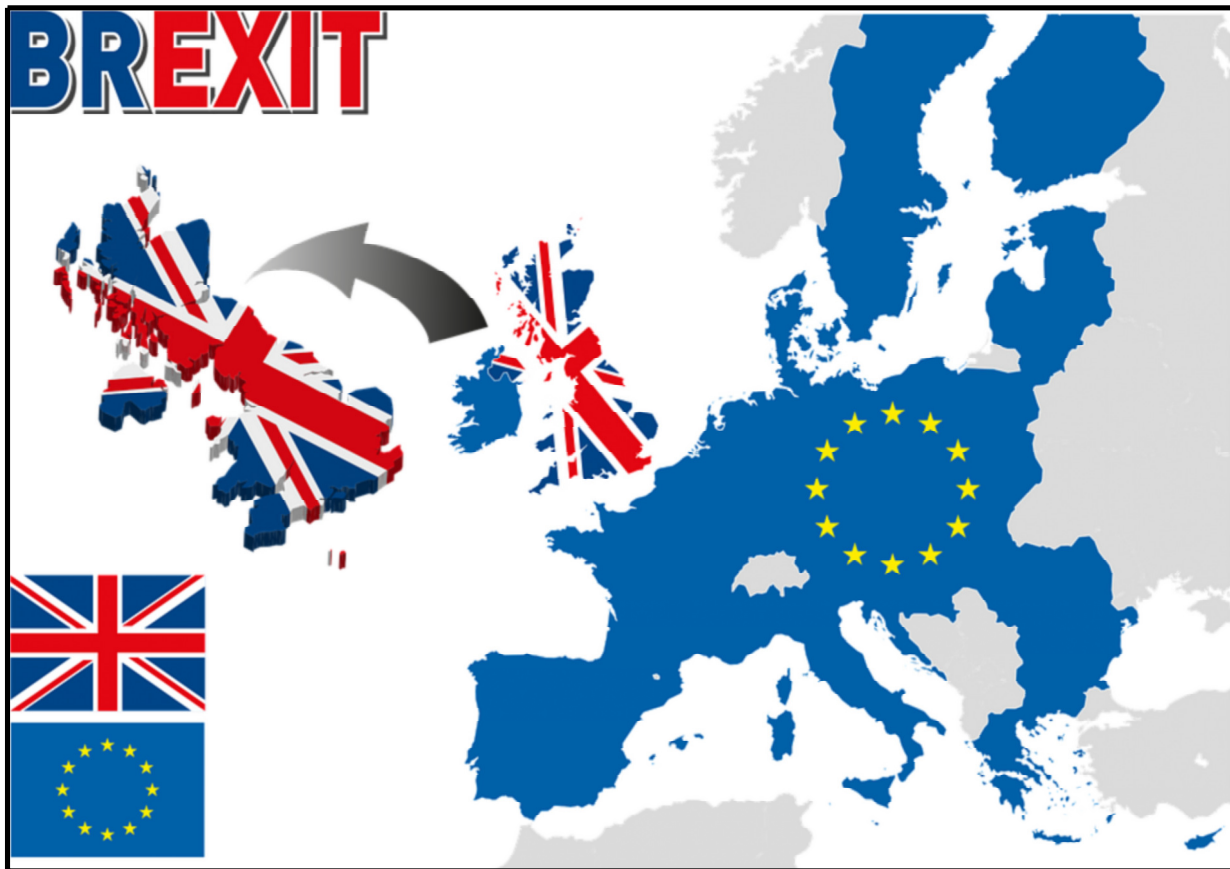

British citizens living abroad and EU citizens here have had their rights guaranteed. That is the right thing to do. For a limited period UK courts have the power to ask the European Court for an opinion. The critical point is that this will come to an end after 8 years and it will be our judges who decide, not the EU.

Much of what's good in this agreement will probably need to be put into UK law and our MPs will have a vote. The MPs and businessmen who oppose Brexit and want to over-turn the result are planning to step up their campaign in 2018.

Together we can make sure that our politicians continue to do the right thing and vote to implement the decision we made last summer.

Thank you for all your support so far. Together we are making a difference and making sure we take back control.

Republicans in Congress are getting concerned that President Obama will try to use the final year of his term to push through too many controversial laws. Obama would've responded but he was busy drafting his new "mandatory Mexican gay weed" bill."

In Beijing, because pollution has reached 35 times the safety level, children have been ordered to stay home. This could mean a delay for anyone who ordered a new iPhone."

"This is the anniversary of the Great Wall of China. We often say what's the deal with these Chinese? But in all honesty, since they built the Great Wall, not one Mexican has sneaked in."

"Facebook has unveiled a new option to let users keep their private information secure."

The option is called 'Sign Off of Facebook.'"

"Facebook has revealed their estimated net worth — £96 billion. That's almost as much money as businesses lose every year from their employees wasting time looking at Facebook."

IN THE MEME TIME....

A Muslim can murder
50 homosexuals, and Liberals
still defend the religion,
but a Christian who
refuses to bake a homosexual's
wedding cake endures
nationwide shaming on behalf
of their religion....

This is how ridiculous liberals
look to everybody
these days.

RED CROSS EXPOSES "JEWISH" HOLOCAUST HOAX: INTERNATIONAL RED CROSS (IRC) DOCUMENT CONFIRMS 271 THOUSAND NOT 6 MILLION DIED IN CONCENTRATION CAMPS!

OFFICIAL INTERNATIONAL RED CROSS RECORDS RELEASED AS BRITAIN MOVES TOWARDS
CRIMINALIZING HOLOCAUST DENIAL!

Sealed and guarded since the end of WWII at Arolsen, Germany, the Official IRC records reveal the actual Concentration Camp total death toll was 271,301

For years, people around the world – "the West" in particular – have been told that "six million Jews were systematically murdered by Germans in 'Concentration Camps' during World War 2."

Thousands of honest people disputing this claim have been viciously smeared as a hateful anti-Semite. Several countries around the world have jailed and heavily fined people for disputing the claim that "Six Million" Jews were killed.

(Concen. Camp)	stand (Up-dated)	Auszahl (Total Deaths)
Auschwitz	31.12.1977	52.389
Bergen-Belsen	30.09.1973	6.507
Buchenwald	30.09.1973	20.501

Groß Rosen	30.09.1973	7.925
Heub.-Heuengamme	30.09.1973	5.570
Neubausen	30.09.1973	77.727

GESAMT	31.12.1978	271.301

Provided here is a scanned image of an Official International Red Cross document, proving the so-called "Holocaust" [the long-and-often-claimed-6-million Jews] is just plain wrong. Supporters of this gross distortion of history, around the world have intentionally exaggerated and perpetually lied to the purpose of gaining political, emotional and business advantage for themselves.

They committed wilful, criminal FRAUD upon millions of trusting people around the world!

Please NOTE that the truth has been known since long before 1979!!! The above compiler, replying to a letter, had to rely on information that was already in existence!!!

Tax-payers of Germany, Switzerland, Austria, Latvia, Poland and other nations have had multiple Millions of dollars taken from their wages to be paid out to "holocaust survivors" and their descendants for something that DID NOT HAPPEN.

The tax-payers of these United States of America spend Billion\$ each year in direct, indirect and military support of the State of Israel.

This is intentional, criminal fraud on

These numbers closely match the numbers I was taught in grade school. Interesting it is that this document surfaced. I heard the six million number as an adult, some time later. I was shocked by it, as if it was a new revelation. My school district was ridiculed for holding on to the old books that were published shortly after World War 2, but I think and have thought for years that SOMEONE in my school district knew that the new books were packed full of lies, and have never felt cheated over having such old books in school. After all, how much more accurate can you get than having something that was published when it happened, rather than later, when manipulations have taken place?

jimstonefreelance.com

a scale so massive as to be almost incomprehensible.

Red Cross and East German government figures put the total deaths at every camp as 272,000, and 282,000 respectively which includes homosexuals, communists, gypsies, murderers, paedophiles etc.
